Slippery goes on in school!
The rainbow room have been writing sentences about Penelope the Python. They decided Penny is mischievous and slippery but a little bit fun! They laughed out loud at all the funny things Penelope could do. They have requested a snake in school to help them with back flips in PE!

Due to the wind, Y6 could not have their camp fire during their Forest School session so instead they worked in teams to explore things they could do with a tarpaulin sheet.

Behaviour on the playground

Across the school, behaviour in classrooms and on corridors has improved dramatically. Children have responded brilliantly to the new systems we have in place. This term we are focusing on how the school rules and consequence system are applied on the playground.

Message from the Head

Over the last few weeks we have begun to make use of our new quiet room and library. Both spaces have been amazing additions to the school and have been working to enhance teaching and learning as well as offering pastoral intervention.

Year 5 have been investigating the effects of water resistance on boats that they designed and made.

In Science, Year 4 have been applying their understanding of living things by classifying them using a Carroll diagram.

Reception have been working on persevering and having the positive attitude to keep trying. They have used this while threading beads in a game to see who has 'more' and 'fewer' beads as part of their maths learning.

Notices

A reminder that bikes and scooters should not be ridden across the playground.

Please keep encouraging your child to do their homework and read every night. We can see the difference this is making already.

Dates

| | |
|---------------------|---|
| 30/1/24 | Stafford Gotta Dance Tickets on sale |
